

Gas & Electric Yard Light Maintenance

Oakleaf Homeowners Association, Inc.

YARD LIGHT INFORMATION

September 2013

Because Oakleaf is an upscale community, all yard light fixtures must be kept uniform in appearance.

As the neighborhood ages, we know that residents will need to make repairs to their year lights fixtures.

The Board has gathered the following information to assist our neighbors.

To service the gas and electric parts of the Bavarian Model 1200 (gas model) and the Bavarian Model

1200E (electric model), parts or replacements can be ordered through **American Gas Lamp Works**.

When placing an order be sure to identify yourself as an "**Oakleaf Resident**". Ask for Sarah.

Please visit their website for additional information and other great products.
